Professional Summary

Results-driven MERN Stack Developer specializing in building scalable, real-time web applications. Proven ability to develop robust RESTful APIs, optimize database performance, and deliver responsive full-stack solutions using React.js, Node.js, Express.js, and MongoDB. Passionate about building end-to-end systems that solve real-world problems with clean architecture and performance-focused engineering.

Projects

SyncSpace (*Collaborative Study Platform*) — *React.js, Node.js, Express, MongoDB, Socket.io, Tailwind CSS*

- Built a full-stack real-time collaborative study platform with live chat, study rooms, and multi-user file sharing, supporting concurrent users seamlessly.
- Implemented a Pomodoro productivity timer, voice communication, and dynamic multi-user session handling to enhance the study experience.
- Developed a scalable Node.js and Express backend with MongoDB, optimized for low-latency performance under high-concurrency workloads.
- Designed a fully responsive React.js frontend with Tailwind CSS, ensuring consistent and smooth experience across all devices and screen sizes.

Dynamic API Generator — *React.js, Node.js, Express.js, REST APIs*

- Developed a full-stack platform enabling developers to dynamically create, configure, and manage RESTful CRUD APIs without writing repetitive boilerplate code.
- Implemented live endpoint routing, strict CORS policy handling, and a built-in API testing interface for instant request validation and debugging.
- Built an interactive auto-generated documentation UI that simplifies API consumption and accelerates frontend integration workflows.
- Optimized developer productivity with reusable, modular endpoint templates and seamless third-party service compatibility.

Technical Skills

Languages: JavaScript, Python, C

Frontend: HTML, CSS, React.js, Tailwind CSS

Backend: Node.js, Express.js, REST APIs

Database: MongoDB

Tools & Platforms: Git, GitHub, VS Code

Education

Birla Global University, Bachelor of Computer Applications (BCA)

2024 – Present

Volunteer Experience

Point of Contact (POC) – Spectra 2026 (BGMI LAN Tournament)

2026

Birla Global University, Bhubaneswar

- Managed complete event operations for 150+ participants, overseeing registrations, bracket scheduling, and on-ground logistics from start to finish.
